Research Profile

PhD student in Computer Science and Engineering at The Hong Kong University of Science and Technology (HKUST), advised by Professor Xiaofang Zhou. My research focuses on interaction and context management for LLM agents, enabling them to maintain user intent and task goals across multi-turn, long-horizon interactions.

Education

The Hong Kong University of Science and Technology (HKUST) *Sep 2025 – Present*
PhD in Computer Science and Engineering; Advisor: Prof. Xiaofang Zhou Hong Kong

Harbin Institute of Technology *Sep 2021 – Jun 2025*
Bachelor of Computer Science and Technology, School of Future Technology (formerly Honor School)

Research Interests

Interaction and Context Management for LLM Agents, with emphasis on:

- **User Interaction:** Tracking user intent and preference changes in multi-turn dialogue.
- **Environment Interaction:** Maintaining user intent and task goals throughout long-horizon execution.

Honors and Awards

- HKUST Postgraduate Studentship (PGS)
- National Scholarship (2022–2023)
- Finalist, Mathematical Contest in Modeling (USA)
- Outstanding Student Award (Provincial Level)
- Outstanding Graduate, Harbin Institute of Technology
- HKUST RedBird PhD Scholarship
- First-Class People's Scholarship (each semester)
- First Prize, College Mathematics Competition
- Outstanding Graduate of Heilongjiang Province

Research Experience

LAMDA, Nanjing University *Jul 2023*
AI Cloud-Based Scientific Research with Data-Driven Knowledge; Project Experience
